

DINH HUY BUI

Data Analyst & Analytics Engineer

+84 328 979 304 | huybui9703@gmail.com | [LinkedIn](#) | [GitHub](#) | Cau Giay District, Hanoi, Vietnam

PROFESSIONAL SUMMARY

Results-driven Data Analyst with sharp problem-solving skills and an innovative mindset, specializing in transforming fragmented data sources into centralized, highly actionable data architectures.

EDUCATION

Foreign Trade University (FTU)

Bachelor of Economics (High Distinction) - Major: International Economics

Hanoi, Vietnam

2021 – 2025

EXPERIENCE

Vietnam Educational Cooperation Joint Stock Company

Data Analyst (Sales Department)

Hanoi, Vietnam

06/2025 – Present

- **Restructure & Manage CRM Data Warehouse:** Standardized and synchronized fragmented data sources across admissions departments; structured the Data Warehouse to track full student lifecycle from initial contact to enrollment. Served as technical lead connecting company databases with third-party CRM systems.
- **Build Executive & Operational Reporting Systems:** Analyzed business requirements to establish Executive, Operational Monitoring, Performance, and Conversion Rate reports categorized by lead channels.
- **Design Interactive Dashboards:** Built responsive dashboards on Power BI and Zoho Analytics for monitoring target vs. actual performance, assisting management in data-driven decision-making.
- **Initiate & Develop Student & KPI Web Management System:** Spearheaded the development of a centralized management app resolving operational bottlenecks, **saving 40% operational time** for admissions teams.

Z Solution Joint Stock Company

Data Analyst (System Business Development)

Hanoi, Vietnam

03/2024 – 06/2025

- **Market Research & Strategic Evaluation:** Participated in international market research (Philippines, Thailand); evaluated feasibility for new product categories. Executed discount campaigns and sales contests, assessing performance based on empirical metrics.
- **Data Infrastructure & ETL Optimization:** Collaborated with IT & BI teams to standardize data structures and overall reporting architecture. Engineered and optimized ETL pipelines, **reducing daily data processing time by 20%**.
- **Automated Reporting Systems:** Developed automated dashboards on Power BI and Metabase, enabling multi-dimensional data synthesis for agile market response.

PROJECTS

Student Management Web System & CRM Data Warehouse

2025

- **Centralized application and admissions Data Warehouse planning** – Restructured and integrated fragmented data sources across admissions departments into a centralized Data Warehouse. Built a Web App management system that **reduced operational overhead by 40%** and standardized reporting for executive management. (Technologies: Data Warehouse, Python, JavaScript, CRM, Power BI, Zoho Analytics)

ETL Pipeline Optimization & International Analytics Dashboards

2024

- **Data analytics infrastructure for Philippines & Thailand markets** – Designed large-scale ETL pipelines for international markets, **cutting daily data processing times by 20%**. Deployed automated Power BI & Metabase dashboards for multi-dimensional business performance tracking. (Technologies: ETL, BigQuery, PostgreSQL, Power BI, Metabase, Market Analysis)
